

Cole Technologies

SPECIAL INSPECTIONS • MATERIALS TESTING • FAILURE INVESTIGATIONS • ENVIRONMENTAL ASSESSMENTS

Established in 1992, COLE TECHNOLOGIES GROUP (CTG) delivers award-winning Special Inspections, Materials Testing and Environmental Assessment services to some of the most prominent owners, real estate developers and construction managers in North America. Protecting the vested interests of its clients and the lives of building occupants remain CTG's highest priorities. CTG's multidisciplinary team of field engineers and certified inspectors, along with its accredited materials engineering and state-of-the-art testing laboratories, ensure that construction projects are executed in compliance with applicable codes, standards and approved contract documents. CTG is MBE-certified by various New York State and City agencies. A leader in compliance engineering and quality assurance services, CTG looks forward to teaming up with you on future projects!
